Reimbursement Policy ID: RPC.0013.2400

Recent review date: 02/2024

Select Health of South Carolina reimbursement policies and their resulting edits are based on guidelines from established industry sources, such as the Centers for Medicare & Medicaid Services (CMS), the American Medical Association (AMA), state and federal regulatory agencies, and medical specialty professional societies. Reimbursement policies are intended as a general reference and do not constitute a contract or other guarantee of payment. Select Health of South Carolina may use reasonable discretion in interpreting and applying its policies to services provided in a particular case and may modify its policies at any time.

In making claim payment determinations, the health plan also uses coding terminology and methodologies based on accepted industry standards, including Current Procedural Terminology (CPT); the Healthcare Common Procedure Coding System (HCPCS); and the International Classification of Diseases, 10th Revision, Clinical Modification (ICD-10-CM), and other relevant sources. Other factors that may affect payment include medical record documentation, legislative or regulatory mandates, a provider's contract, a member's eligibility in receiving covered services, submission of clean claims, and other health plan policies, and other relevant factors. These factors may supplement, modify, or in some cases supersede reimbursement policies.

This reimbursement policy applies to all health care services billed on a CMS-1500 form or its electronic equivalent, or when billed on a UB-04 form or its electronic equivalent.

Policy Overview

This policy describes the denial of duplicate claim submissions by providers contracted with Select Health of South Carolina.

A claim or claim line is considered a duplicate if payment of the same service, for the same patient, on the same date of service was processed to the same provider—whether it is to an individual physician or the same group practice with the same specialty.

Reimbursement Guidelines

Select Health of South Carolina has edits to prevent payment of duplicate claims. Exact duplicates of a claim or claim line will be denied. Claims or claim lines that align closely with a claim that was processed for payment are considered suspect duplicates, and they will also be denied.

An associated modifier may indicate that a CPT/HCPCS code being billed is not a duplicate claim. For example, anatomical modifiers specify the area or part of the body on which certain procedures or non-evaluation and management services were performed. Clinical documentation must support the services being reported. See also Reimbursement Policy RPC.0006.2400 on Bilateral Procedures.

Refer to CPT/HCPS manuals for complete descriptions of procedures and modifiers. Please refer to South Carolina billing resources for fee schedules and other billing guidelines. Please note that a corrected claim must include the appropriate Frequency/Bill Type code to indicate that it is not a duplicate.

Definitions
